Introduction

- **who we are**

"We are a market research company aiming to analyze customer behaviors, and consequently maximize companies' sales."

Project Data

"Information about car sales in the USA during 2022 and 2023, and we analyzed this data, which includes car prices, sales representatives, sales regions, and car brands."

Price	Dealer Name	Company
-------	-------------	---------

car price to
customers
at this time

refer to the car
showroom
which sold the
car

refer to the
manufactur
er of the car

Dealer Region	Color	Date
---------------	-------	------

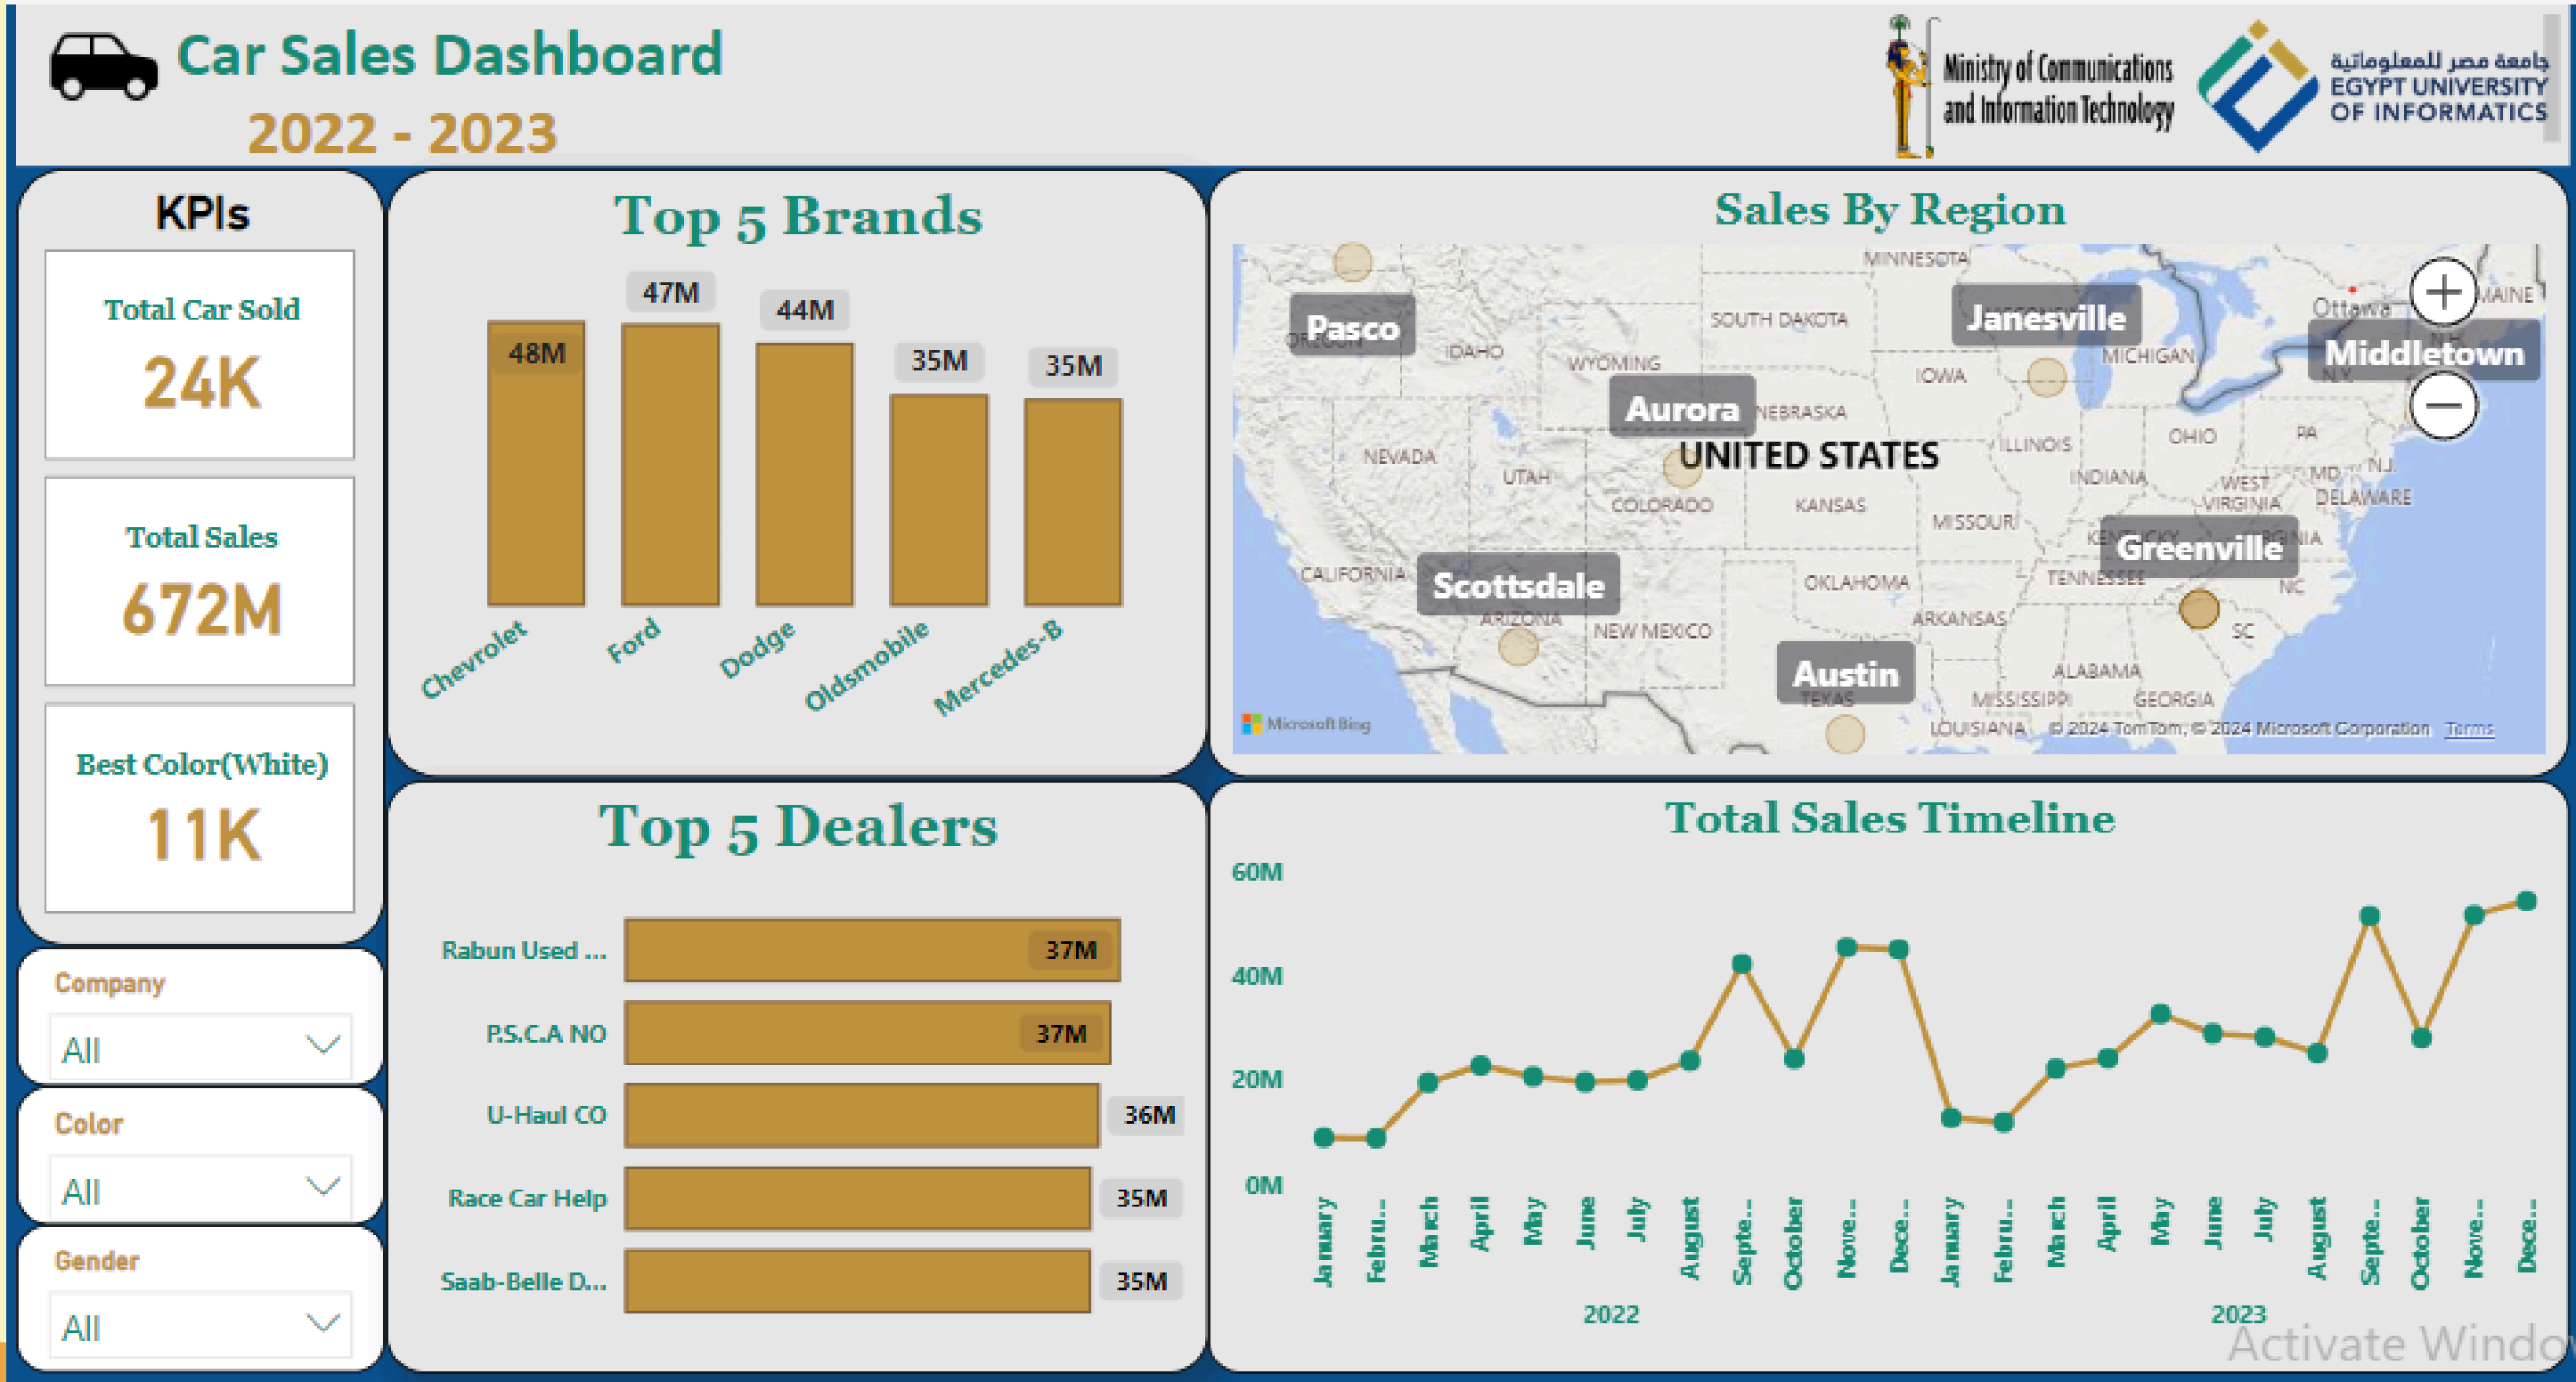

refer to
region in
which car
sold

preference
car color to
customers

refer to date
in which car
sold

ANALYSIS

<https://app.powerbi.com/groups/me/reports/0411921b-8488-422b-a61c-flb82aa4b566/773bebedaeb1bc43d4f5?experience=power-bi>

Project Outputs

01. "We can predict sales growth in 2024 and the coming years."
02. "Through consumer behavior, we can determine when we need to increase production and when to reduce it."
03. "We can identify the consumers' favorite color, which we should increase production of, and the least preferred color by consumers."
04. "The region with the highest and lowest car sales, and the reason behind it."

THANK YOU
